

P.T.V

In-hand corridor

Young riders	X
Seniors	

Equipment...

- 2 red flags set at an angle
- 2 white flags set at an angle
- 1 number
- 4 poles of 4 m

Features...

- The device is materialized by poles laid and fixed on the ground in a straight line
- Inner width of the corridor of 0.5 m
- Length 8 m
- Regular ground
- The stirrups must be raised or crossed

Objective : In-hand corridor

Moving through the corridor without touching the bars and keeping to the initially chosen gait.

Effectiveness faults...

Before the difficulty

- Running out
- Error of course corrected
- Stepping back
- Refusal
- Circling

In the difficulty

- Break of gait
- Touching pole(s)

Choice of gait...

- Trot
- Walk

For break of gait: the lowest speed is taken into account, the recovery of the original gait is not involved in the note.
